

NEST CENTRE - an after-school programme for children from multi-problem families

Brief description:

This is a mandatory introduction training for any organization that wants to implement the Nest Centre model. The Nest Centre is an after school facility for children from multi-problem families. The main aim is to support and develop resilience of these children and to empower them so they can overcome their difficulties. The Nest Center essentially forms a *home away from home*. The copyright on the model is owned by Kinderpostzegels (www.kinderpostzegels.nl); organizations who want to implement Nest are obliged to follow the introductory training organized by ICDI. There is an accompanying manual.

Duration: 3 days

Course Contents (non-exhaustive):

- Introduction into Nest (aims, principles, set-up)
- Child and youth development
- Child rights and participation
- Working with children from multi-problem families
- Working with parents
- Working with volunteers

For: Staff from international and national organizations who wish to establish a Nest Centre
